## World Wide Web.

The society has begun to electronically catalog the State Archives of Ohio and to convert the Archives/Library's printed catalog. When the project is completed, researchers will have immediate access to sources at the society.

The society collections include books, periodicals, journals, newsletters, manuscripts, maps, and state and local archives.

Among the printed sources is a collection of county histories, city and county directories, some 2,500 genealogies, and family histories and published military histories.

Of special interest are the military rosters from the American Revolution through World War I. For each individual, the unit, rank, age, length of service and brief comments about service are included. Civil War rosters contain a list of battles in which individual regiments participated. All rosters are either indexed or in alphabetical order by surname.

A microfilm copy of the Graves Registration File includes most veterans buried in Ohio, regardless of the state in which they served. It covers Revolutionary War Veterans and extends to 1967. Surnames are listed in alphabetical order. Other military sources of not include the *Military History of Ohio* by H. H. Hardesty (New Yor, 1886-87). This multivolume work gives an overview of the participation of Ohio units in the Indian War, War of 1812. Mexican War and Civil War. The volumes cover 29 of the 88 counties in the state.

Published histories for Ohio artillery, infantry and cavalry regiments also are among the society's holdings.

In addition to the Ohio Census for 1820-1880 and 1900-1920 on microfilm, mortality schedules which list Ohio deaths for one year preceding June 1 of the census year also are on microfilm. Included are: 1850 (counties H-N). 1860 (all counties) and 1880 (counties A-Geauga) Only 1850 is indexed.

Birth and death records for various

periods, obtained from a variety of sources including probate court and transcribed records of the Daughters of the American Revolution, are available on microfilm for 29 counties. The research service staff of the society will search for one name in one county for a \$3 fee, plus 18 cents state tare for Ohio residents. When the date of birth or death is not known, please specify a 10-year period to be researched with each request.

There is no statewide index to marriage records before Sept. 7, 1949; records before that date were kept in the counties. The society does have a collection of county records on film, together with other transcriptions. The society is the state depository for Ohio newspapers, most of which are also on microfilm. Approximately one-half of the counties have a printed index to early issues of at least on newspaper. Is is now possible to order a microfilm copy for which the society holds the original. An American Library Association Loan form obtained from and submitted through a local public library should include a check for \$8 per roll made payable to the society. Allow 30 days for delivery to the library.

For information on additional holdings, send for a free copy of the Ohio Historical Society Information Packet to 1982 Velma Ave., Columbus, Ohio 43211, or access the home page of society on the Worl Wide Web: <http://winslo.ohio.gov/ohswww/ohshome.html>

E-mail requests may be sent to the society for a half-hour search of the following indexes: vital records, probate indexes, grantor-grantee deed indexes. census indexes and naturalization. For each search (one name in one source) the fee is \$3. A statement will be sent following the search. Ilse: ohsref@winslo.ohio.gov

The Donohoe Bible was borrowed for copying from an elderly widow, who is my neighbor in Marysville. She is one of the children named among births. but because of age does not wish to be listed for contact.

The front cover of the volume is missing but title page survived. The eight Family Record pages have ornate borders and had been bound in the front part of the volume. The spelling and puctuation used in typescript were copies as faithfully as I could manage of the handwritten material. The question marks indicate areas where overwriting could be read different ways. or where words were missing because of frayed edges of page.
